Systems Change Strategy Checklist

Intended Use: To help your collaboration determine if a strategy is a systems-change strategy by evaluating the following statements.

☐ This strategy changes how systems work, regardless of who enters or leaves the community.

☐ This strategy creates long-term positive change to the chosen problem.

☐ This strategy affects multiple people and/or settings.

☐ This strategy embeds practices or procedures that reinforce new behaviors.

☐ When possible, this strategy embeds practices or procedures into already-existing routines.

☐ This strategy does not depend on any one specific person or event.
